

ordinarius Bossa 20

ordinarius

Ordinarius offers a varied repertoire, using the voice as its primary instrument and the Brazilian percussion as its perfect combination. The group's original and exclusive arrangements are the work of Augusto Ordine, musical director and founder. The repertoire includes pieces by Ary Barroso, Antônio Carlos Jobim, Vinícius de Moraes, Rosa Passos, Joyce and other essential Brazilian composers. The arrangements are both acapella and also with guitar, ukulele and percussive instrumental accompaniment. Brazilian rhythms such as choro, baião, samba and ijexá are visited by the septet that is a modern representation of a timeless Brazilian culture.

With the repertoire of their first album, Ordinarius, considered to be one of the best CDs of Brazilian music in 2012 by the music site "O embrulhador", they have toured in Brazil and Europe. The group's music clips have more than 300 thousand visualizations on YouTube and are drawing in fans from all over the world. The Ordinarius version of "As long as you love me", originally performed by the Backstreet Boys, was recommended by the American group itself on Twitter and Facebook, drawing additional attention to the group's rendition of the song, which ended up being included in the soundtrack of the popular TV drama Salve Gorge, on Brazil's Rede Globo.

The second album, Rio de Choro, was dedicated to this important genre, the Choro, and took Ordinarius to represent the Brazilian culture in countries like Panama, Paraguai and Switzerland.

The third album, Extra, is a digital one and carries some of the songs that are known by the fans through the clips on youtube, but many of them were not yet recorded by the septet.

The forth album is Notável, a journey through Carmen Miranda's repertoire, regarding important Brazilian songs from the decades 1920 to 1940. This CD was nominated for Brazil's most important music award, the Prêmio da Música Brasileira. With this project, Ordinarius toured through the United States, Japan and France.

The fifth album is Paralelas, a tribute to Brazilian women composers. Important names in Brazilian popular music such as Chiquinha Gonzaga, Joyce, Dolores Duran, Teresa Cristina and many others are represented in this project, that was released in the week of the beginning of the COVID pandemic, in a concert in Rio de Janeiro.

During the year 2020 the group was dedicated to Bossa 20, the new project planned together with our patrons at benfeitoria.com/ordinarius and patreon.com/ordinarius. The public selected the songs they wanted to hear on Ordinarius' voices and percussions and the result is the new album, released in 2021.

In 2021 the group recorded songs by Aldir Blanc, a very important Brazilian lyricist, producing the album Blanc, launched in 2022. The concerts returned in 2022, in Brasília, Rio de Janeiro, Canarian Islands (Spain), World Choral Expo (Lisboa) and the festival Leipzig a Cappella (Germany).

In 2023 the group's new release is Pizindim, an album dedicated to the work of Pixinguinha, one of the most important choro composers from Brazil.

Ordinarius' goal is to offer quality vocal music that draws on many styles and sources. Their performances offer the audience the opportunity to sit back and enjoy the best that vocal arrangement can offer, as well as a chance to sing along and join the fun!

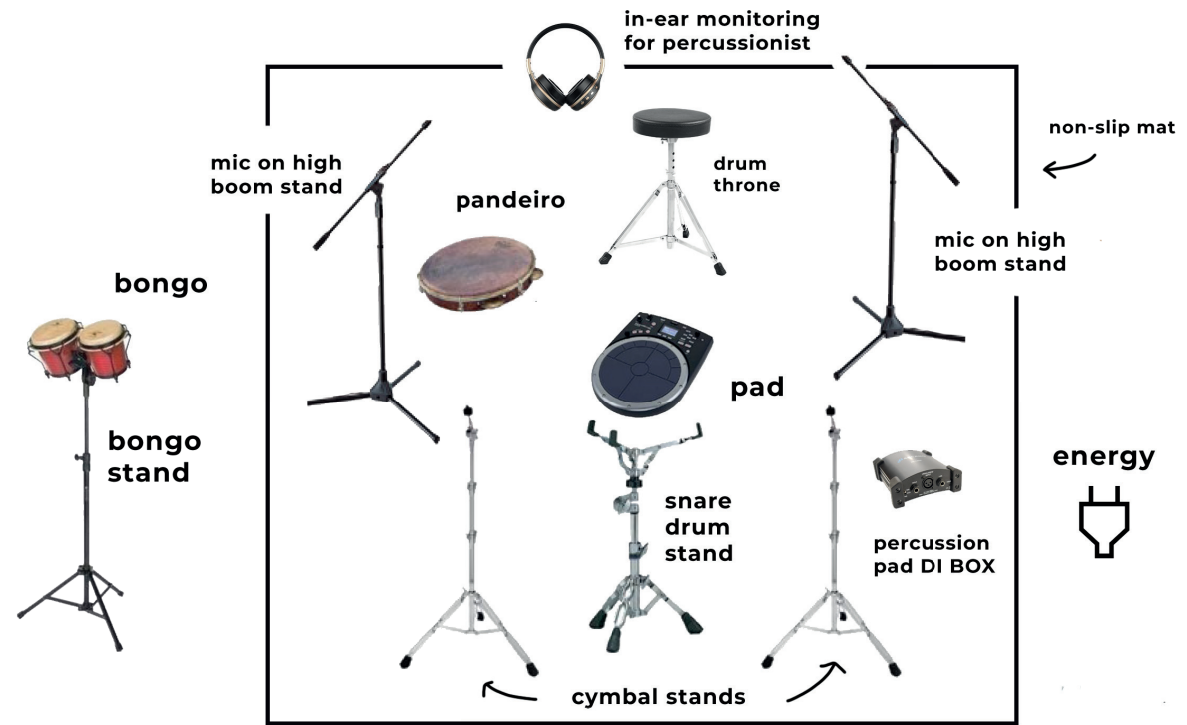

bossa 20

In the year of 2020 Ordinarius produced an album dedicated to Bossa Nova. The production began in January, with one single per month, and kept on going even though the pandemic stroke and the group wasn't able to meet anymore through the whole year.

"Samba de Verão", by Marcos and Paulo Sérgio Valle, "Influência do Jazz", by Carlos Lyra, and "Wave", by Antonio Carlos Jobim, are some of the songs visited by the group in this album. The voices and percussions are filled with Brazilian accent, always mixing tradition and freshness in Popular Brazilian Music.

O coletivo vocal Ordinarium chora o agudo choro do **clássico** da **rã do choro**. Lançamento indubitavelmente finalizado com financiamento coletivo, o grupo faz música à la carte, misturando o velho com o novo, sempre com um viés por ouvir o cantal com o ouvido laicado de um pendente, um caxatxo ou um bane.

Formado por **André Menezes**, **Augusto Ordini**, **André Canaville**, **Luiza Sales**, **Maria Helena e Marcelo Sales**, **Ordinarium** ganhou fama nos reds sociais ao publicar, em dezembro, um clipe de uma das músicas do grupo. Sim, em canções da graduação em música na Universidade Federal do Estado do Rio de Janeiro (UNIRIO).

Não deu o grupo a repetir em clássicos bandados com conjuntos de Noel Rosa, Zequinha de Abreu, Pinguim, Vitor Lobo entre outros. Ao videolâzar, o coletivo lançou o clipe de **“O choro do choro”**, baseado na **lenda** da **composição** de **Carlinhos Brown**. **Batido** de **composições** de **João** **de** **Almeida** **Walt**, **Luiz** **Walt** e **Um chorinho** **de** **João** **de** **Almeida** **Walt**, o clipe **foi** **divulgado** **em** **novas** **redes** **sociais**.

O uso da voz como instrumento é uma rica tradição que se mantém. Com humor, competitividade e talento, a Ordinarium faz um relato de um Rio de Janeiro musical sem CD. O período, passado no passado, também a jovialidade no talento e a surpresa faz reveladas nos arranjos, que são todos assinados por Augusto Ordini.

Ordinarius, sexteto que vem botando para quebrar

Grupo musical formado por matemáticos, advogados, jornalista e dois licenciados em música

130 - A mistura de um matemático com dois advogados, uma jornalista e dois licenciados em música de samba. E choro, bossa nova... O grupo vocal Ordinarias, que cria versões misturadas de canções que estão fora das paradas de sucesso atuais, tem oito anos. Mas foi lá atrás, quando a trupe gravou e jogou na internet o clipe de uma versão de "As long as you love me", hit dos Radstreet boys de 1997, que as coisas começaram a ficar afinadas...

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard training program, while the experimental group received a modified training program. The experimental group was further divided into two subgroups: the low-intensity group and the high-intensity group. The low-intensity group received a low-intensity training program, while the high-intensity group received a high-intensity training program. The subjects were then subjected to a series of tests to measure their performance and physiological responses.
